ECLIPSES.

An eclipse of the Sun can only happen at New Moon, or when the Moon is apparently in conjunction with the Sun; and an eclipse of the Moon at the time of Full Moon, or when the Moon is in opposition to the Sun. In the former case, the two bodies appear in the same part of the heavens together; in the latter they appear in exactly opposite parts of the heavens. In both cases the three bodies, the Sun, the Moon, and the Earth, are nearly in the same straight line; and as the Moon and the Earth are dependent on the Sun for the light they receive, it is evident that an eclipse happens in consequence of one of the two opaque bodies, the Earth or the Moon, being so placed as to prevent the Sun's light from falling on the other. Thus, the interposition of the Moon between the Sun and the Earth produces an eclipse of the Sun; and that of the Earth between the Moon and the Sun, so that its shadow falling on the Moon, or on any part of it, produces an eclipse of the Moon.

The greatest number of eclipses which can take place in any year is seven, and the least number is two. If there are seven, five will be of the Sun, and two of the Moon. If there are only two, they are both of the Sun, for in every year there are at least two eclipses, of the Sun. There can never be more than three eclipses of the Moon in a year; and in some years there are none at all.

A telescope with a low optical power is, perhaps, the best suited for observing an eclipse, the eye end being covered with a piece of coloured or smoked glass, to protect the eye of the observer from the otherwise intense rays of the Sun.

The application of observations of the time of the commencement and ending of eclipses, which are the only observations that are really useful for practical purposes, is principally for the determination of differences of longitude between the places where such observations may be made.

SURFACE OF THE MOON.

We find upon the Moon's surface a range of mountains, lifting themselves above a level country, and extending nearly two hundred miles. This mouutain range comes into the sunlight just after the moon has passed its first quarter, and is then one of the finest objects that the telescope reveals to the eye of man. The brilliancy of the illuminated heights and ridges, the absolute blackness of the deep, rocky chasms, the lofty peaks, the rugged precipices, and the deep shadows, all combine to increase the natural grandeur of this extensive mountain range. Let it not be imagined that details in such a scene, such as actual individual rocks, of definite form and outline, are to be seen; but as lights and shades produce the forms of every surface, so these lights and shadows on the moon bring out the absolute forms in the most distinct and perfect manner. The contrast between the dark and illuminated parts of the moon are far deeper and stronger than on the earth. This arises from the fact that the sunlight on the moon is not reflected or refracted by an atmosphere such as surrounds the earth. The twilight which attends the setting sun and the dawn, which so beautifully announces the coming of day, does not exist for the lunarians. If any eye beholds the rising of the mighty orb of day from those lofty lunar summits which are first illumined by horizontal beams, no gentle flashings, or rosy tints, or purple hues, but from intense darkness there is an instantaneous burst of brilliant sunlight. The beauty of our dawns and twilights is due to the atmosphere which sourrounds the earth, and while we cannot affirm that no such atmosphere surrounds our satellite, we are certain that whatever gaseous envelope may surround the moon on its hither side, its density cannot compare with that of the terrestrial atmosphere. Under very favourable circumstances, with the great refractor of the Cincinnati Observatory, the author has either seen, or fancied he saw, a faint penumbra edging the dark mountain shadows, and clinging to the black outline, as it slowly crept up the mountain side, as the sun rose higher and higher.

Some of the mountains of the moon reach an elevation of 8,000 to 10,000 feet above the general level. Here and there we find insulated peaks rising abruptly from extended plains to a height of 6,000 or 7,000 feet, and in the early lunar morning flinging their long, sharp, black shadows to a vast distance.

But the most remarkable feature presented in the lunar surface is the tremendous depths of some of the cavities, and their immense magnitude. Some of them extend beneath the general level of the country to a depth of 10,000 to 17,000 feet, and their rough, misshapen, precipitous sides exhibit scenes of rugged sublimity to which earth presents no parallel. Of these cup-shaped cavities, especially in the southern portion of the lunar hemisphere, the number is beyond credibility; and, in case we admit them to be the extinct craters of once active volcanoes, we are forced to the conclusion, that convulsions, such as the earth is a stranger to, have shaken the outer crust of our satellite into a hideousness of form unknown in any region of our planet. Some of these deep cavities are nearly circular in figure, and with diameters of all magnitudes up to twenty miles. Before the power of the telescope had reached its present condition, the darker spots of the moon were assumed to be seas and oceans; but the power now applied to the moon demonstrates that there cannot exist at this time any considerable body of water on the hemisphere visible from the earth.—*Professor Mitchel's Popular Astronomy.*

1.—GENERAL TEST.

NOTIFICATION.—FORT ST. GEORGE, 26*th April* 1861.—His Excellency the Governor in Council deeming it expedient that the regulations now in force for testing the qualifications of candidates for employment in the Uncovenanted Civil Service of this Presidency should be so far altered as to allow of persons who have been admitted into the public service, on the ground of their having passed an elementary examination in those branches of knowledge which usually form the basis of a general education, being promoted without passing any further literary test ; and that the University examinations should be more closely and more obviously connected with those prescribed for the public service ; and also that more effective provision should be made for testing the professional qualifications of candidates for employment in particular offices or departments,—directs that the following regulations shall be substituted for those contained in the Notification dated the 4th March 1858.

General Orders by the Most Noble the Governor General of India in Council. Fort William, 28th February, 1856—No. 340 of 1856.—The following Notification, issued from the Financial Department, is published in General Orders.

No. 9, dated 22d February 1856.—Read a despatch from the Hon'ble the Court of Directors, No. 107 of 1855, dated the 5th December.

Resolution.—The Hon'ble the Court of Directors having approved, with certain modifications, of a code of rules recommended by this Government for regulating leave of absence and acting allowances to public officers in India not in the Covenanted Service of the East India Company, the Most Noble the Governor General in Council is pleased to resolve, that the following rules, together with the despatch above adverted to, be published in the *Official Gazette* for general information, and be held applicable from the date of the publication of the notification, to all officers in the Uncovenanted Service of the Government, who may be in the receipt of salaries of Rupees 100 a month and upwards.

FINANCIAL DEPARTMENT.

OUR GOVERNOR GENERAL OF INDIA IN COUNCIL.

No. 107 of 1855.—1. We have carefully considered the papers accompanying your letter noted in the margin, relative to the proposed enactment of rules for the regulation of leave of absence, &c., to the large and increasing classes of public officers not in the Covenanted Service of the East India Company, but, nevertheless, in many cases performing duties of great importance and responsibility. It is scarcely necessary to observe that we desire to treat them in this, as in all other respects, with the utmost liberality and consideration that may be consistent with the interest of the Public Service.

Letter from, dated 28th July 1855, No. 101.

Forward the report of a special Committee, (consisting of the Military Auditor General, the Secretary to the Government of Bengal, and the Accountant to the Government of Bengal,) which was appointed by the Government to consider the subject of framing a code of rules for the regulation of leave of absence and acting allowances for the Uncovenanted Service, and express an earnest hope that the proposed code may receive the Court's sanction.

2. Adopting as a principle to be inviolably maintained, that in each separate case of absence of an Uncovenanted officer, the expense occasioned thereby is to be defrayed out of the absentee's salary, we are prepared to concur in the grant to Uncovenanted servants (receiving Rupees 100 per month and upwards,) of the advantages as respects sick leave and leave on private affairs proposed in the code under consideration. The advantages may be concisely stated, as follows :—

1*st.*—*Sick Leave.*—The grant of leave for three years altogether, during the entire period of service, of which two years only may be continuous or reckon as service for pension. During one year of absence, the absentee to be subjected to the deduction of half, and during the remaining period, of two-thirds, of his allowances, provided that he shall in no case draw a larger sum than Rs. 6,000 (£600) per annum.

The maximum being thus fixed, we shall leave it to the Local Government, in the exercise of their discretion to determine in each case, how far the advantages of the rules should be modified with reference to the length of service of the applicant and other circumstances.

We desire, however, that after a continuous absence of two years on sick certificate, an interval of two years shall elapse before further leave on that account is granted.

2nd.—Leave on private affairs.—The grant of leave for one month in each year without deduction; for six months on sufficient cause being shown with deduction of half allowances, provided the rate of Rupees 6,000 (£600) per annum be not exceeded, and under special circumstances, for twelve months without forfeiture of appointment, but without pay and without the leave counting as service for pension.

This latter advantage may, we think, be fairly conceded in special cases to Uncovenanted servants, since a regular furlough on private affairs cannot be granted to them, and the loss of their appointments involves practically the loss to them of the service. But it should not be allowed more than once during the period of service.

3rd.—We accede to your suggestions that heads of offices in cases of urgency may be authorized to grant leave of absence on medical certificate to the extent of one month, provided the same be immediately reported for the sanction of Government.

4th.—The Rules proposed regarding the allowances of persons appointed to act for absentees appear unobjectionable.

We are your affectionate friends,

(Signed) E. MACNAGHTEN, W. H. SYKES, and eight other Directors.

RULES FOR REGULATING LEAVE OF ABSENCE AND ACTING ALLOWANCES TO PUBLIC OFFICERS IN INDIA NOT IN THE COVENANTED SERVICE.

Published by the Government of India under date 28th February 1856, No. 340, as applicable to those on the receipt of salaries of 100 Rupees and upwards.

☞ The orders of the Supreme and Local Governments issued since the promulgation of the original Rules are inserted under their proper heads enclosed in brackets.

CHAPTER I.—*Rules for Application of Leave of Absence.*

Section I. Leave of absence to officers not in the Covenanted Service of the East India Company, receiving their appointments direct from Government, will be granted by the Government only* under which office is held, on application made publicly through the regular channel in the department to which the applicant may belong; but in respect of all other officers, it will be optional with the local Government to delegate to heads of offices or departments, power to act upon the rules without special reference to higher authority.

Section II. Absence without leave will render the absentee liable to loss of appointment, and will be attended with entire forfeiture of salary for the whole period of such absence.

Section III. No leave† of absence shall have any retrospective effect, except in cases of severe illness to be attested by medical certificate conforming in every respect to the directions contained in Section IV.

---

* In their Proceedings of 17th October 1861, No. 506, the Madras Government resolved "to vest the Court of Sudder Adawlut, the Board of Revenue, and the Chief Engineer, Public Works Department, with the power to grant *privilege* leave to the full extent to all Officers subordinate to them under the grades noted in the margin, a previous reference however being made to Government when it is necessary to appoint an Officer to act for the Absentee.

Civil and Session Judges.
Collectors and Magistrates, and Agents to the Governor.
District Engineers.

Applications for such leave should be submitted to the above mentioned authorities through the prescribed channel and be settled by them after reference to the Audit Office.

2. The controlling authorities named in the margin are also vested with power to grant leave similarly to all Officers subordinate to them, subject to the same provisions.

Director of Public Instruction.
Inspector General of Police.
Superintendent of Marine, except to Master Attendant of Madras.
Principal Inspector General, Medical Department, as regards Civil Medical Officers.
Director of Revenue Settlement.
Superintendent of Revenue Survey.
Inam Commissioner.
Conservator of Forests.

3. Notifications of the grant of privilege leave by the several authorities will be forwarded *direct* to the Superintendent of the Government Press to be published in the Fort St. George Gazette."

† From the resolution of the Government of India, dated 12th April 1860, No. 3279, it may be inferred that *privilege* leave may, as a special case, be granted retrospectively.

CHAPTER II.—*Rules for Sick Leave.* *

Section IV. When an application for leave of absence is made on the ground of ill health, it must be accompanied by a statement of the case from the Medical man by whom the applicant has been attended, distinctly stating, from personal observation, the nature of the disease, the symptoms by which it is manifested, the causes by which it has been probably produced, and the period during which it has existed so far as the knowledge of the Medical officer extends ; and by a certificate from the chief medical officer of the station or district, or if at a presidency town, from a presidency or other official surgeon, certifying, after careful personal investigation, the necessity for temporary removal, and the period for which absence is, to the best of his judgment, absolutely requisite for restoration to health. If the requisite leave be for a longer period than six months, the certificate must, in the first instance, be countersigned by the Superintending Surgeon of the division in which the applicant may be located ; and in cases of leave beyond sea, be afterwards submitted, with the statement of the case, for the consideration and countersignature of the Director General of the Medical Department.

The certificate shall be given in the following form:—

I, A. B., Surgeon at or of——do hereby certify that E. F. (here enter designation of office) is in a bad state of health, and I solemnly and sincerely declare that according to the best of my judgment, a change of air is essentially necessary to his recovery ; and that the circumstances of his case are such as to render leave of absence for the period of ——absolutely necessary (or highly desirable.)

The following form shall be observed by the Superintending Surgeon and Director General of the Medical Department in countersigning the certificate:—

I (or we) do hereby certify that according to the best of my (or our) professional judgment, after careful consideration of his case, I (or we) believe the state of health of E. F. to be such, as to render leave of absence for a period of——absolutely necessary (or highly desirable) for his recovery.

An application for extension of leave must, if the applicant be in India, be accompanied by a certificate to a like effect from the medical officer by whom the applicant is attended, together with a statement showing sufficient reason for the extension solicited; and such certificate must be countersigned by the Director General of the Medical Department, or by the Superintending Surgeon of the division in which the applicant may be located. In like manner, if the applicant shall have proceeded beyond the territories under the Government of Her Majesty's Government of India, he must furnish a certificate and statement to the required effect from a Surgeon or Physician at the place of his temporary residence, by whom he has been attended ; such attendance and the period of it to be stated, and the certificate to be countersigned by the examining Physician of the East India House if the absentee is in Europe, or by the principal medical authority of the colony or country to which the absentee may have proceeded ; or some sufficient reason stated for the want of such countersignature if not produced.

The Officer countersigning must either personally examine the applicant, or state some sufficient reason why he has been unable to do so. When any of the required particulars are neglected, leave will be refused.

Section V. Leave of absence will be granted under the following limitations to servants who may be declared, by a sufficient medical certificate, to require leave for the restoration of their health :—

Clause 1. The limit to leave on medical certificate is fixed at three years during the entire period of service, of which not more than two years may be continuous and two years only will be permitted to reckon as service qualifying for pension.†

Clause 2. Leave of absence on medical certificate will not be granted for a longer period than twelve months at any one time, which may, however, be extended, if necessary, under renewed medical certificate, for periods not exceeding six months within the limit of two years continuously. After a continuous absence of two years on medical certificate, an interval of two years shall elapse before further leave on that account is granted.

* The mere fact of the presentation of a Medical Certificate is no bar to the grant of privilege instead of Sick leave.---*Gazette*, 11*th May* 1860, *page* 1050.

† Servants who have enjoyed the advantage of reckoning as service for pension all authorised leave beyond the limit fixed by the rules are not now to be deprived of counting their past leave as service.—*Court's Despatch*, 13*th May, No.* 38 *of* 1856.

Clause 3. During one year of the entire period of absence under this rule, the absentee will be subjected to a deduction of one-half, and during the remainder to a deduction of two-thirds of his allowances, provided, however, that he shall in no case draw a larger sum than Rupees 6,000 (£600) per annum.

Clause 4. In cases of extreme urgency, the heads of offices are authorized to grant leave of absence on medical certificate to the extent of one month, provided the same be immediately reported for the sanction of Government.

[The leave granted under Section V to an Uncovenanted servant proceeding to Europe shall be computed from the date of the sailing of the vessel on which he may have embarked from any port in India which is not more distant from his station than the ports of his own Presidency to the date of his arrival at any port within the Presidency to which he belongs or at any other port which is not more distant from his station than the ports of his own presidency.—*Notification of Government of India, 11th July* 1856, *No.* 36, *Gazette, 1st August* 1856.]

Section VI. Parties who may desire to draw their allowances while absent on leave, will be required to give security in such amount and form, as may be fixed by Government for the refund of any excess that may be drawn in case of their coming under retrenchment.

CHAPTER III.—*Rules for leave on Private Affairs.*

Section VII, [Clause 1.—Leave of absence may be granted for one month in each calendar year without deduction from salary, provided that the indulgence can be granted without injury to the public service, or additional expense to Government. Those servants who may not have occasion to apply for the whole month's leave at once, may divide it into two instalments. No second leave shall be granted under this rule, until the completion of eleven months from the expiration of the last leave, if taken at one time, or from the date of return from any sick leave or leave on private affairs, or if the leave be taken in instalments, until the completion of six months from the expiration of the last instalment. Uncovenanted servants not availing themselves of the indulgence in any one year, may, at the option of the local Government, obtain under the like conditions, leave of absence for two successive months, to commence at or after the expiration of twenty-two months, from the termination of their former leave, and if two years elapse without enjoyment of the privilege, leave for three months may, in like manner, at the option of the local Government, be granted at the expiration of thirty-three months from the termination of the last preceding leave ; but no leave shall be granted under this rule for any period exceeding three months. If a servant shall not return at the expiration of the period of leave granted him under this rule, he shall forfeit all pay and allowances during the time of his remaining so absent without leave, and if he shall so continue absent for more than one month beyond the term granted, his office shall become vacant.

Clause 2.—Officers of the Judicial department taking leave during the authorized closing of the Civil Courts, will be allowed to draw full salary during such leave, but will not be held entitled, in addition thereto, to privilege leave under the 1st clause of this rule.—*Notification of Government of India,* 27*th June* 1857, *No.* 25, *Gazette,* 28*th July* 1857.]

[Instalments of privilege leave can only be taken in the same Calendar year at any interval, any balance remaining unavailed of being forfeited. The period required to lapse between the time an Officer returns to duty and again becomes eligible for privilege leave is calculated from the expiration of one month after the commencement of the first instalment of leave taken in the year, the subsequent instalment not being taken into account.—*Resolution of Government of India,* 12*th April* 1860, *No.* 3279, *Gazette,* 11*th May* 1860, *page* 1050.]

[When servants absent on leave under Section VII are granted extended leave under medical certificate, they are considered liable to the rules applicable to leave of absence on medical certificate for the whole period of their absence.—*Gazette,* 4*th September* 1857.]

[The mere fact of the presentation of a medical certificate is no bar to the grant of privilege leave—*Gazette,* 11*th May* 1862, *page* 1050.]

[No leave can be granted under Sections VIII to X in continuation of that under Section VII.—*Notification, Fort St. George Gazette,* 26*th September* 1856.]

Section VIII. In addition to the above, and on sufficient cause being shown, leave of absence may be granted on private affairs for not more than six months, one-half the

absentee's salary being deducted for such period of absence, provided the rate of Rupees 6,000 (£600) per annum be not exceeded.

Clause 2. The leave granted under this section will be computed from the date of the absentee's quitting his post to the date of his return thereto. A second leave of the same description cannot be taken till the expiration of six years from the date of return to duty from a former leave. No portion of the salary allowed to be drawn will be claimable till the absentee shall have returned to his duty.

Clause 3. Leave taken under this and the preceding section will reckon as service qualifying for pension.

[Clause 4. If an officer while absent on leave under this section, obtains an extension of leave on medical certificate, he will be liable for the whole period of his absence to the rules applicable to leave on medical certificate.—*Resolution of Government of India, 26th April* 1862, *No.* 74, *Gazette,* 16*th May* 1862, *page* 758.]

Section IX. In addition to the leave which may be granted under the preceding rules on medical certificate, or private affairs, Government may at any time, under special circumstances and at its discretion, grant leave of absence once during the period of service not exceeding twelve months on private affairs, without forfeiture of appointment, but without pay ; such period of absence not to count as service towards pension.*

Section X. No leave of absence on private affairs shall be claimable by any party whatever under these rules, as a matter of right ; such leave will be granted only at the pleasure of the Government or its authorized officers when the concession of the indulgence in no way interferes with the interests of the public service, and it shall be the duty of the Government in every instance, (except in the case of leave granted under Section VII,) to consider and determine whether the grounds of the application are sufficiently urgent to justify the concession of the leave.

[☞ The salary of servants absent on privilege or special leave on the last day of the month is not to be included in the pay abstracts of the District or Office, unless the absentee return to duty before the abstract is despatched.—*Notification,* 1*st July and* 27*th September* 1857.]

[The salary of an officer who may die while absent on privilege leave is to be passed up to the date of death.—*G. I.* 7*th May* 1861, *No.* 5418, *Financial Dept.*]

Preparatory Leave.

[The Government is authorized to grant, as a general rule, to Uncovenanted officers proceeding beyond sea, on medical certificate, special leave for the interval elapsing between departure from station and the commencement of reckoning absence or between the end of reckoning absence, and re-arrival at station, for an additional period of four, six, or eight weeks, according as the distance to be travelled shall not exceed 300 or 600 miles, or be in excess of the last mentioned distance, on the condition that during this additional period, the absentee shall be entitled to draw the same rate of allowances as are granted by the Clause noted in the margin. If the leave on medical certificate be taken in India, the preparatory leave is to be calculated at the rate of one day for every fifteen miles of the distance to be travelled to the Sanatarium.—*Notification of Government of India,* 14*th October* 1857, *No.* 42.]

In the case of Uncovenanted servants, Clause 3 of Section V of the absentee rules for the Uncovenanted Service.

[A separate application for preparatory leave need not be submitted by officers proceeding to Europe on sick leave. The Civil Paymaster is authorized to pass the allowances of such officers for the period occupied in travelling to and from the port of embarkation when satisfied that the conditions upon which such leave is permitted by the existing orders of the Supreme Government have been duly fulfilled.—*Notification of Government of India,* 17*th April* 1857, *No.* 18, *Gazette,* 1*st May* 1857.]

[Leave may be granted on separate application preparatory to furlough on private affairs, or for return to station after the expiration of furlough only on the terms of Section IX of four, six, or eight weeks, according as the distance to be travelled shall not exceed 300 or 600 miles, without forfeiture of appointment, but without pay ; the period of absence not counting as service towards pension.

* Servants who have enjoyed the advantage of reckoning as service for pension all authorized leave beyond the limit fixed by the rules are not now to be deprived of counting their past leave as Service.—*Court's Despatch,* 13*th May, No.* 38 *of* 1856.

If the furlough, however, be enjoyed in India, no preparatory leave is to be granted; the furlough being reckoned from the date of the absentee's quitting his post to the date of his return thereto.—*Notification of Government of India, 22nd January* 1857, *No.* 4, *and 17th April* 1857, *No.* 18, *Gazette, February* 1857, *and* 1*st May* 1857.

[The absentee is not entitled to any pay for the time intervening between the expiring of his preparatory leave and the date of embarkation: nor is he at liberty to reckon his sick leave from date of expiring of preparatory leave instead of from the date of embarkation; but every special case of this description will be considered on its merits.—*Letter from Government of India, 17th April* 1862, *No.* 2882, *published on page* 803 *of Gazette, 23rd May* 1862.]

[If the officer be at a Presidency town he is allowed one month's preparatory leave.—*Letter of Government of India, 7th September* 1861, *No.* 11,369, *Gazette, October* 1861, *page* 519.]

Occasional Leave.

[It is left to Heads of Offices, subject to the orders of the local Government, to grant, at their discretion, casual leave of absence from office in cases of sickness, death of near relatives, &c., on condition that the local Government shall see that the discretionary power to be placed in the Heads of Offices is not abused. Such casual absences from office are not to be reported to the Civil Auditor, but systematically entered in a book to be kept in each office, and when an application for privilege leave is received, the leave should be granted or refused with some reference to the entries in this book.—*Pro. of Supreme Government, 28th Sept.* 1858, *Fin. Dept., No.* 5670, *Fort Saint George Gazette, 18th Nov.* 1858.]

[This leave is granted without loss of salary and without being taken into account as part of the two years allowed by Clause 1 of Section V.—*Pro. of Govt. of India, 12th June* 1857, *Fin. Dept., No.* 2527, *Gazette, 17th July* 1857.]

Leave before Retirement.

[Uncovenanted servants about to resign the service, who are residents in India, and have no voyage to prepare for, have not, in the opinion of the Governor General in Council, any reasonable claim to a month's "preparatory" leave; but he thinks that this indulgence, which is granted on half-pay to Covenanted servants, may be extended to *European* Uncovenanted servants, intending to proceed to Europe immediately on retirement, on the understanding, however, that it shall be subjected to the same condition as the leave to Covenanted officers, viz., that it shall be granted only in case it can be given without detriment to the public service.—*Notification of Government of India, 29th April* 1859, *No.* 36.]

CHAPTER IV.—*Rules for Allowances, &c.*

Section XI. No person appointed to a situation under the Government shall draw the salary of his appointment for any period prior to the date of his joining it.

[Arrival on a Sunday entitles the relieving officer to the salary of his appointment for that day, but on other days it is necessary in order to enable the relieving officer to draw the current day's allowance, that he should take charge of the duties of the office before noon.—*Not. of Govt. of India, 26th March* 1862, *No.* 49, *Gazette, 15th April* 1862, *page* 594.]

Section XII. An officer holding a situation, appointed to one of equal or higher value, will, until he joins, draw so much of the salary of his new office as may be equal to the salary of his former situation; provided he does not exceed the time allowed for joining under the following rules; should he do so, no salary will be paid to him for such period in excess.

Section XIII. The time ordinarily allowed for joining an appointment is to be calculated at the rate of fifteen miles a day (Sunday excepted), together with a week* to prepare for the journey; but on occasions of emergency, it will be optional with the Government to prescribe the period within which any journey is to be performed.

[For the portion of the journey traversable by railway 100 miles a day are allowed; for the portion traversable by steamer 100 miles a day or the time actually occupied in

the voyage, when by accident the duration of the voyage exceeds the time calculated at the rate of 100 miles a day.—*Not. of Govt. of India*, 30*th March* 1861, *No.* 65, *Gazette*, 14*th May* 1862, *page* 675.]

Section XIV. A person officiating temporarily in any situation, will draw so much of the salary of such situation as may equal the sum deducted on account of absence from the real incumbent, and the substantive allowances of every officer temporarily acting in a situation of superior emolument, will be subject to deduction at the same rate; but no additional expense is on any account to be incurred by the absence of any officer on leave.

[When Covenanted officers, Civil or Military, officiate for Uncovenanted officers, and when Uncovenanted officers act for Covenanted officers, Civil or Military, the deputation allowances in such cases will be regulated according to the principle laid down in Chapter VI, Sections 25, 26 and 27* of the Covenanted Civil Absentee Rules, it being understood, how-

* CHAPTER VI.

RULES FOR DEPUTATION ALLOWANCES.

* * * * * *

Section XXV. Deputation allowances shall be granted to Civil Servants temporarily performing the duties of an office according to the following rates, and subject to the limitations and conditions hereafter laid down :---

To Civil servants not holding any substantive appointment, at the rate of 50 per cent. on the monthly salary of the appointment officiated in, such Deputation allowance being in addition to the subsistence allowance of their respective ranks.

To Civil servants holding an office of inferior emolument, when officiating in an office of superior emolument, at the rate of 20 per cent. upon the monthly salary of the appointment officiated in, in all cases in which the salary of such appointment shall not exceed Company's Rupees 2,000 per mensem, and in respect to all appointments of which the salary shall be more than Company's Rupees 2,000 per mensem, at the rate of 20 per cent. upon Company's Rupees 2,000 and of 10 per cent. on the amount in which the monthly salary may exceed Company's Rupees 2,000, provided, however, that no lower rate of Deputation allowance shall be given than Rupees 200 per mensem.

The Deputation allowance shall in all cases be in addition to the salary of the substantive appointment held by the officer on Deputation.

The above rates are granted provisionally, subject to future revision.

In the Punjaub, Nagpore and other places, where appointments are by classes, the amount of Deputation allowances, payable at the above rates, will be calculated, not upon the salary of the individual officer holding the substantive appointment in which the officer deputed may be temporarily officiating, but on the average rate of salary attached to the particular classes to which the appointment may belong.

A Civil servant acting for another shall have no claim to Commission or Fees, where any such sources of emolument exist. These shall be regarded as forming part of the income of the officer to be relieved, subject to the prescribed deductions.

A Civil servant acting in an appointment, the salary of which is to be reduced on the retirement of the present incumbent, will draw Deputation allowance on the reduced salary.

An officer officiating in more than one appointment will be entitled to Deputation allowance, regulated by the aggregate amount of the salary of the Offices.

An Officer appointed permanently to a higher situation, but prevented from joining his appointment by an order of Government, and detained to officiate in a situation of still higher emolument than the one to which he has been permanently appointed, will be entitled to a Deputation allowance in addition to the higher salary to which he has been promoted.

Section XXVI. No Civil servant, temporarily officiating for another, shall draw an amount larger than the entire emoluments of the office in which he is officiating, and if the amount of the Deputation allowance, according to the prescribed scale, added to the permanent emoluments of the officiating servant, would exceed the emoluments of the office in which he is temporarily acting, the excess shall not be drawn. But this provision shall not apply to the case of any officer deputed for special reasons to act in an office of inferior emolument to his own. In cases where an officer holding two appointments, on being deputed to officiate for another, shall be relieved only from one, he shall receive no deputation allowance, unless the emoluments of the office in which he is deputed to act, exceed the united emoluments of his permanent appointments, and in that case the Deputation allowance shall be limited to the difference.

Section XXVII. No subordinate officer acting for his principal or for any other person holding a superior appointment in the same office or establishment, at the same station, shall be entitled to any Deputation allowance until after the expiration of one month, and then the allowance is not to be drawn in arrear. But a servant previously out of employment, or who may be deputed to act from a different station, shall be entitled to Deputation allowance from the date at which he may enter upon the discharge of the duties to which he has been temporarily appointed.

ever, that Section 27 shall not apply to *Ministerial* officers acting for Covenanted officers, who are entitled to acting allowance from the date they commence to officiate, and not after the expiration of one month, as in the case of other Uncovenanted officers of superior grade.

When an officer of the Uncovenanted Service acts for another of the same service, or when a Military officer acts for another Military officer, he shall be governed by the rules of the respective services to which he belongs.—*Notification of Government of India*, 9*th May* 1859, *No* 638, *Fort Saint George Gazette*, 27*th idem, page* 1074.]

[When an officer officiates in another appointment continuing at the same time to discharge the duties of his own post, he is permitted to draw the full salary of his substantive and a moiety of the acting appointment.—*Resolution of Government of India*, 16*th March* 1860, *Gazette*, 17*th April* 1860, *page* 843.]

[The deductions are invariably to be made in accordance with these rules from the salaries of all absentees, whether they are in receipts of 100 Rupees or less, except when special directions are issued by Heads of Offices to make larger deductions which may be necessary in cases of officers whose duties cannot be otherwise provided for without extra expense to Government.—*Proceedings of Government of India*, 9*th November* 1857, *No.* 4696, *and Proceedings of Madras Government*, 30*th idem, No.* 764.]

Heads of Offices are required to be guided by the spirit of the rules above prescribed in granting leave of absence to servants, whose salaries are less than 100 Rupees a month.—*Notification of Government of India*, 6*th February* 1857, *No.* 11, *Gazette*, 20*th idem, page* 342.

DISMISSAL OF UNCOVENANTED SERVANTS.

Prara. 1. In the Resolution of the Most Noble the Governor General in Council forwarded with Mr. Under Secretary Couper's Letter of the 24th February last, the local Governments are directed " to issue the necessary orders for the establishment of a rule to prevent the arbitrary dismissal of Uncovenanted servants, based on the suggestions of the Honorable Court."

2. The Right Honorable the Governor in Council considers a rule of this nature highly desirable—for so long as the Uncovenanted servant can be dismissed without full enquiry, and proof of misconduct, at the will of his superior, his tenure of office is so uncertain that it leads almost necessarily to the habit of looking at office as temporary, and the temptation therefore is to make the most of it whilst it is held.

3. This power of arbitrary dismissal also confirms in the whole body of the Native servants the habit of servile dependence on a superior, which strikes at the root of all independence and manliness of character.

4. The Governor in Council resolves therefore, in compliance with the orders of the Government of India, to lay down for the guidance of the Heads of all Offices in the Revenue, Judicial, Military and Public branches of the Service, the following general principles by which the dismissal of Uncovenanted servants should in future be regulated.

5. Persons appointed to permanent situations in any Department, shall not be dismissed, but for fraud and dishonesty—continued and wilful negligence—offences involving moral disgrace—and proved incompetency.

6. As under the present rules for the Revenue and Judicial Departments, fines exceeding 10 Rupees cannot be inflicted without the sanction of the Board of Revenue and the Court of Sudder Adawlut respectively, it is simply consistent to provide the same control over the dismissals of persons receiving upwards of 10 Rupees—but it will be sufficient to require returns to be made of such dismissals, specifying the cause of dismissal as falling within one or other of the Heads in the above category, and to provide that no dismissal shall be final until the expiration of three months from the date on which the return shall be transmitted, giving the party a right of appeal at any time within that period. It should be understood that dismissals not appealed from nor objected to by the Controlling Board upon their own review of the returns are to be taken as confirmed.

7. The rule should be more definite than it is in the Judicial Department as to what servants may be dismissed *without the previous consent* of the controlling authority. In the Revenue Department, Tahsildars cannot be dismissed without previous sanction—and this rule ought to be extended to some other responsible situations—such as Talook She-

ristadars. Peishcar, Hoozoor Head Gomastah and the like. A similar rule should be applied to protect Officers of the same grades in the Judicial Department.

8. The Governor in Council considers it but just and proper that greater protection should be given to *old* servants, and with this view he directs that the previous sanction of the controlling authority should be indispensable to the dismissal of any servant of 15 years' standing receiving a certain salary, say 25 Rupees a month—but the amount will be determined on the report of or according to the opinion of the Court of Sudder Adawlut and Board of Revenue, who will confer together and report on this point.

9. In every case the specific grounds upon which it is proposed to dismiss any servant should be reduced to writing and furnished to him, and the answer or defence or explanation of the party taken in writing, and the final decision of the superior recorded in writing. It will not be absolutely necessary for every head of charge to be formally proved by evidence, but where a specific fraudulent act is charged, of course it should be so proved in the presence of the party accused and subject to his cross examination, and so with other specific acts susceptible of proof by the evidence of witnesses upon which accusations within the category are built—but the charges will often be matter of inference from circumstances not capable of formal proof but not less leading to a moral conviction. The rule therefore on this head ought not to be rigorous.

10. As connected with this subject, the Governor in Council takes the opportunity of declaring the practice of Officers introducing their own dependants or followers from other Districts into high and responsible trust under them in a new office, thus superceding the old servants of the office, to be very objectionable—and he accordingly resolves that this source of arbitrary removal be at once checked. With regard to the highest offices in the Revenue Department, they are subject to the confirmation of the Board of Revenue, and it will be the duty of the Board to prevent the appointment of a follower of the Collector without good and sufficient reason being assigned, contrary to the declared sense of Government on the subject. The appointment of Deputy Sheristadar should also be made subject to the confirmation of the Board—but it will be sufficient when an Officer of that grade is appointed that the appointment shall be reported to the Board with a statement of his previous services, that the Board may interfere if the appointment shall appear objectionable on the ground of the declaration of Government.

11. This course should also be followed in regard to the appointment of the Sheristadars and other principal Ministerial Officers of the Judicial Courts.

12. With regard to offices which are subject to no controlling authority, the Government will directly exercise the same measure of control as is proposed to be exercised by the Sudder Court and the Board of Revenue respectively in regard to the Heads of Offices subordinate to them.

13. The Court of Sudder Adawlut and the Board of Revenue as well as other controlling authorities will accordingly prepare and submit subsidiary rules for giving effect to the foregoing views and orders of Government.

14. The Government of India require the transmission to them of a half-yearly list of all dismissals (with the cause briefly set forth) of Uncovenanted servants holding office with a salary above 10 Rupees per mensem. To enable this Government therefore implicitly to obey those orders, Heads of all offices in the Revenue, Judicial, Military and Public branches of the Service must consider it their very special duty to furnish the Government regularly with the required half-yearly Returns—and those officers who have hitherto neglected to obey the orders of this Government on the subject, dated 18th November 1851, No. 1064, will immediately submit their Returns for the entire year of 1853. With these Returns and those already received for that year, a General Return wll be prepared in this office to be laid before the Government of India.—*Ex. Min. of Cons., 5th May* 1854, *Public Department, No.* 421.

CIVIL PENSION AND GRATUITY RULES.

The following revised Rules for the Grant of Pensions and Gratuities to superannuated and discharged Public Servants, were published for general information on the 15th of May. Subsequent modifications and amendments are inserted under their respective heads within brackets, the date of the order of Government being quoted in support.

I. Rules relative to the grant of Superannuation Pensions to Subordinate Officers in the Civil Department.

First. Superannuation Pensions will be granted only to the superior classes of Public Servants indicated in the annexed list.* Inferior Servants,---Peons, including Jemadars and Duffadars, Lascars, Boatmen, Artificers, Labourers and Menials are to have no claim to such provision.

* Vide Appendix No. I.

Second. With the exception of Native Judges and Law Officers, the applicant must have been employed in the Public Service for a period of at least twenty years.

Appendix No. I Clauses 1 & 2.

Third. The Public Servant, whatever may have been the period of his service, must be incapacitated for further employment by old age, protracted ill health, loss of sight, or other bodily or mental infirmity [except in the case of those who are thrown out of employ by the reduction or abolition of Establishment after having served continuously for 20 years and more.—*Gazette*, 25*th November* 1862, *page* 839.]

Fourth. The character, conduct and past services of the Public Servant must be favorably certified by the Officer or Officers under whom he may have been employed, and must appear to be such as to entitle him to the favorable consideration of Government.

[Any Uncovenanted servant belonging to a class recognised by the present rules who, though not possessed of a medical certificate of incapacity, and who can produce unquestionable testimonials of a faithful and efficient discharge of his duties during a period of 35 years, may be permitted to retire from the service on a pension equal to half the average salary which he may have received during the last five years of his service. These pensions are to be regarded as the rewards of good service, and they will not in any case be claimable as of right.---*Notification Gazette*, 21*st July* 1854.]

Fifth. Whenever it may be judged expedient to grant a Pension to a Public Officer whose case may come within the foregoing provisions, the amount of the Pension shall be limited as follows :---

1st. If the period during which the individual may have been actually employed in the Public Service shall be more than twenty years, but less than thirty years, the amount of the Pension shall not exceed one-third of the monthly salary or authorized official allowances of such individual, calculated on an average of five years previously to the date of the application for such pension.

2nd. If the period of actual service shall have been thirty years or upwards, the amount of the Pension shall not exceed one half of the salary or authorized allowances of the individual, calculated in the manner above stated.

3rd. For Law Officers and Native Judges [and Principals and Head Masters of Colleges and Schools---*Vide Ext. Min. of Cons.*, 12*th June* 1855, *No.* 153, *S. Pub.*,] the period of 15 years shall be substituted for that specified in Clause 1st, and 22 years for the term mentioned in the 2nd clause.

4th. The rates of Superannuation Pensions shall be fixed on a graduated scale within the prescribed limitations with reference to the responsibility and arduousness of the employment, the degree of merit of the individual, and the nature and length of his service.

Appendix No. II. Clause 3.

[Uncovenanted servants, appointed after May 1855, receiving salaries of 700 to 2,000 Rupees monthly, are not allowed a larger pension than £400 or Rupees 4,000 per annum, nor will a larger pension than £500 or Rupees 5,000 per annum be allowed to those receiving salaries above that amount.—H. Ct. 28th Feb. No. 21 of 1855, Fl. G. I. 19th May 1855, No. 1934, Fl. M. G. 12th June 1855, No. 153 S. Pub. Dt.

Sixth. A Pension will hereafter be granted by Government to the family, or any member of the family of a deceased Public servant, only when such servant shall have been killed in the execution of his public duty, or shall have died in consequence of wounds or accidents sustained therein.

Seventh. Should cases arise which are not sufficiently provided for in these rules, or in which, from special circumstances, Government may be pleased to deviate from them in favor of a claimant to a pension, such pension shall be considered only as temporary and provisional, until the grant shall have received the sanction of the Honorable the Court of Directors.

Eighth. Whenever an application may be made to Government with a view of obtaining the grant of a Pension in favor of any officer employed in the Public Service, the application shall contain full and specific information on the following points:

1st. The name, class or caste, age and proposed place of residence of the individual for whom the pension may be solicited, the situation in which he may be employed at the time when the application may be made, the total period during which the individual may have been employed in the Public Service, and various official situations in which he may, from time to time, have been so employed.

2nd. The monthly amount of the salary or official allowances of the individual in question, on an average of five years previously to the date of the application.

Appendix No. II, Clause 4.

3rd. The causes by which the individual may have been rendered incapable of discharging any longer the duties of his office, whether by extreme old age, protracted illness, loss of sight, or other bodily or mental infirmity.

4th. His general character, conduct, and past services in the official situations which he may have held.

[5th. The date from which the pension is to be paid.

6th. Whether provided for in the budget.—*Pro. of Govt.*, *9th May* 1862, *Financial Department*, *No.* 34.]

Ninth. If the officer making the application shall be unable, from his personal or official knowledge, to supply the whole of the specific information above required, he shall endeavour to obtain it from the records of the Office in which the applicant may have been previously employed, or he shall call upon the individual in whose favor the application may be made, to furnish a written statement, (to be verified by his oath or solemn declaration if required) on such of the points above noticed as may be necessary.

Tenth. If the individual shall be rendered incapable of further service by protracted illness, loss of sight, or other bodily or mental infirmity, a medical certificate by a European Medical Officer in the service of Government to that effect, shall be also transmitted with the application. The certificate shall contain a clause certifying that the state of health by which the applicant is rendered unfit for further service has not been occasioned by intemperance or other irregular habits.

Eleventh. Each application for a pension under the foregoing rules, shall be made by the Head of the Office under whom the individual recommended to be pensioned may be employed, [upon demi paper in the printed form annexed, and not in manuscript.]

Appendix III.

[Applications for Pensions or Gratuities shall be forwarded by Heads of Offices direct to the Civil Paymaster for verification, instead of to the Chief Secretary to Government, and the Civil Paymaster after filling up the blank form upon the back of each application will transmit it in due course for the final orders of Government.

Heads of Offices are warned to be careful that applications for Pension are sent up in as complete a form as possible, so as to avoid unnecessary delay and correspondence upon points that may have been omitted. Explanation should invariably be given of the circumstances under which individuals may have been removed from, and restored to, the Public Service, and the orders of Government, or the Board of Revenue, if any, should be quoted.

The Civil Paymaster will return to the transmitting Officer for correction all applications for Pension in which this Rule may not hereafter be attended to.—*Pro. of Govt.*, *26th April* 1862, *Pension Department*, *No.* 137.]

Twelfth. Lapses of Pensions shall be communicated to the Civil Paymaster as soon as possible after their occurrence, and it shall be the duty of the several Officers in charge of Treasuries from which Pensions are paid, to appoint a proper person of their establishment to

Appendix No. II, Clause 10.

report all lapses to them and, along with themselves, to be responsible to Government for the fulfilment of this rule.

Thirteenth. No Pension shall be payable in arrear for a period exceeding six months, without the express sanction of Government obtained through the Civil Paymaster, unless the cause of the suspension of payment shall have been the neglect, order or act of some Public Officer, and beyond the control of the Pensioner;—when the Civil Paymaster on a reference being made to him, shall exercise his discretion in passing arrears for payment, or submit a representation of the case for the information and orders of Government, as he shall consider proper.

Fourteenth. It shall be the duty of the Civil Paymaster to exercise a vigilant control over this class as over all other Civil Pensions, and with that view to bring to the notice of Government all instances in which, in the granting of Superannuation Pensions, any of these rules may be departed from, unless he shall be distinctly informed that a special exception has been made in the individual instance.

Fifteenth. It shall further be the duty of the Civil Paymaster to lay before Government at the end of each official year, a statement exhibiting a comparison between the amount of Pensions that have lapsed, and the amount of Pensions granted during the year; and as a check against the fraudulent continuance of Pensions beyond the actual term of the Pensioners' lives, that officer shall, from time to time, compare the periodical decrement of life; and where lapses do not occur in the proportion that might be anticipated, it shall be his business to institute such enquiry as may appear necessary to ascertain whether, and in what particular instances, fraud has actually been committed, and to submit to Government the result of his investigation.

II.—*General Rules as to Civil Pensions of every description.*

1. The 12th, 13th, 14th and 15th rules respecting Superannuation Pensions, are hereby extended to all other Civil Pensions.

2. In conformity with Act VI of 1849, Pensions are not liable to attachment or sequestration in satisfaction of any decree or order of Court.

3. The custom of mortgaging Pension Certificates, by which great distress has been occasioned to Pensioners, is prohibited. Superannuation, Family and other Civil Pension Certificates are not transferable, and the Pensions are payable only to the individuals in whose names they have been granted, or to their authorized Vakeels, in the particular instances specified below in rule 5.

4. Payment of all Civil Pensions is forbidden, except upon production of the Pension Certificate, and as a description of the Pensioner will be entered in all Certificates, it will be the duty of the Officer paying the Pension, with the exceptions specified in the following rule, to see that the party attending to receive it, corresponds in personal appearance with the description given in the Certificate. On payment being made, *the receipt of the Pensioner is to be written on the back of the Certificate, signed or marked in presence of the paying Officer, and attested by the initials of the payer.*

Appendix No. II, Clauses 12, 13 & 14.

5. From the personal attendance required by the foregoing rule, none are excepted, but females whose caste or condition in society would render their appearance in public improper, or such Pensioners unable to attend, producing evidence of this fact satisfactory to the paying Officer, who alone are permitted to nominate Vakeels, whose evidence and profession must be described, and who in all practicable cases, should be individuals in the receipt of Pay or Pensions from Government. But to guard against the abuses to which this indulgence is liable, the Officer by whom such Pensions are paid, will, in his monthly returns, note the individuals who have been allowed to appoint Vakeels, and must ascertain by the best means in his power, that their principals are alive, by making enquiries among the most respectable Natives of the same caste, and by watching whether the usual proportion of casualties occur.

6. The indulgence of receiving their stipends quarterly, instead of monthly, may be extended to such persons as desire it.

7. Officers paying Civil Pensions will be held responsible for the amount of all irregular payments on this account which may be made under their authority; and also, for all refunds thereof, the non-recovery of which may arise from neglect or inattention on their part.

8. The payment of all Civil Pensioners will be confined to the Station or District which they may select on first being entered on the Pension list. If, in any *special case*, a change of payment should afterwards be solicited or become expedient, an application is to be made through the Officer paying the pensioner, to the Secretary to Government in the Public Department, who will issue the necessary orders and transfer certificate; but without his previous authority no removal is to take place.

9. Any casualty occurring by death or removal from one District to another is to be carefully notified to the Civil Paymaster, and in the former case the Pension Certificate of the

deceased is to be forwarded to the Secretary to Government in the Public Department, to be cancelled.

10. To prevent pensions being overdrawn or continued beyond the period for which they are granted, through ignorance on the part of the holder or inadvertence on that of a Native Officer, in all future Pension Certificates, the columns shall be filled up by the paying Officer, in the language of the Pensioner, and in that of the District where the Pension is payable, as well as in English.

11. Depositions taken to establish the rights of claimants to pensions must always be recorded and signed; and all persons in the receipt of Pay or Pensions from Government are informed that, in event of their giving false evidence, or being in any way concerned in an attempt to defraud the Public to their own personal advantage, or that of others, or who being cognizant of such frauds, shall fail to divulge them, will be totally deprived of the bounty of Government and subject to such further punishment as the Law may authorize.

III.—*Rules respecting Gratuities to discharged Servants.*

[An individual who has served less than 5 years has no claims to gratuity. A gratuity of three months' pay is allowed to one who has served 5 and less than 10 years 4 months' pay for one who has served 10 and less than 15 years, 5 months' pay for one who has served 15 and less than 20 years, and 6 months' pay for one who has served 20 and upwards..—*Government of India Not. 6th June* 1862, *No.* 3999.]

[The Government of India have ruled, 30th September 1858, No. 2183, that servants on 10 Rupees a month and under should receive gratuities in about the same proportion as has been provided for persons on salaries in excess* of 10 Rupees and less than 25 Rupees a month, that is, that the gratuities shall be calculated at 5 months' pay.]

* "See Clause 3, Section II, of the "Rules dated 13th November 1857, "No. 4912 A."

[For the future, when an Uncovenanted servant is thrown out of employ by the abolition of his appointment, his claim to gratuity shall at once be considered, and decided on; but instead of receiving in one sum the whole gratuity which may be sanctioned, he shall continue after his discharge to draw his salary from month to month until the amount of the gratuity be exhausted. If he should, in the meantime, be readmitted to the Government service, he may be permitted either to draw the unexhausted balance of the gratuity on the understanding that his previous service will not be allowed to count towards pension, or to refund by convenient instalments the amount already paid to him, and thus to recover the privilege of reckoning his service.—*Gazette, 3d October* 1862, *page* 503.]

Service admissible for Pension.

Fort St. George, November 27, 1855.—The following Extract from a Despatch from the Honorable the Court of Directors, addressed to the Government of India in the Financial Department, No. 75 of 1855, dated the 15th August, is published for general information :—

Para. 3.—If an Uncovenanted servant be dismissed for misconduct, and be subsequently re-admitted to employment, his first service is not to count for pension. But with this exception, we shall allow twelve months to elapse between two periods of service without the servant forfeiting his claim to count the first period as well as the second towards the retiring pension. The privilege, however, of so reckoning the time of service, can only apply to two periods. If there is any other interval, the service that may follow cannot be counted as continuous.

T. PYCROFT, *Chief Secretary*.

Fort St. George, April 14th 1835.—The Right Honorable the Governor in Council is pleased to notify that the Honorable the Court of Directors have been pleased to declare "Claims to pension founded on occasional employment as a substitute copyist for others on the fixed establishment of a public office to be inadmissible," and to direct that no application for a pension shall be entertained in behalf of an individual after he has finally quitted the public service.

Fort St. George, December 19th, 1837.—It is hereby notified for the information of persons holding subordinate situations in the public service, that employment in extra or temporary establishments does not confer any claim to pension or gratuity, the superannuation Pension regulations being applicable only to persons who have been employed for the prescribed term of years in a fixed establishment.

At these hours the peons quit the office with the packets and are conveyed in Accelerators into the more distant parts of the city. On Sundays there is only one delivery, viz. at 11 A. M.

In the *Provinces* the hours of delivery at each station depend on the time of the arrival of the mails there.

Inland Postage.—(1) *Letters.* The postage on letters prepaid is disbursed by stamps which are recommended to be attached at the upper right hand corner of the letter on the side on which the address is written. The rates of postage are, for letters not exceeding in weight ¼ tolah, half anna ; ½ tolah, one anna ; 1 tolah, two annas ; 1½ tolahs, three annas ; 2 tolahs, four annas ; and for every tolah in weight above two tolahs, two additional annas. Every fraction of a tolah above two is charged as an additional tolah. On letters sent bearing, double postage is payable ; and on those underpaid a charge is made equal to twice the difference between the value of the stamp put on and the regulated amount of postage payable. Letters are registered on the payment of a fee of 4 annas in stamps, and a receipt for them is furnished. No letter exceeding 12 tolahs in

weight can be transmitted by the letter post on a line of road where there is a Banghy dâk, nor can a letter of less weight than 12 tolahs be sent as a Banghy parcel, on a line where the Banghy and Letter Mails are conveyed in the same carriage. Letters, &c., damaged or bearing the appearance of having been opened and reclosed, or otherwise improperly dealt with, will not be received for transmission unless the writer or sender thereof attest with his full signature that they were posted in that state. Letters cannot be recalled except with permission of Government. Those posted for despatch to any place to which a post communication has not been established by Government, must be prepaid according to the above rates: if they be not they will be dealt with as unclaimed letters. Letters on private affairs addressed to Government must be prepaid, and those having stamps, but obliterated, will be treated as unpaid. Forward or redirected letters are charged with a single rate of postage in addition to that paid, or due on them. The postage on letters, &c., rejected unopened by the addressee, if unpaid, is recoverable from the senders. Unclaimed letters, packets and parcels, *i. e.*, those which for any reason cannot be delivered to the addressee, are returned through the Dead Letter office; but if the senders cannot be traced and they remain unclaimed for a year, they are destroyed, and the valuables, &c., found in them are made over to Government.

(2) *Newspapers, &c.* The postage on Newspapers, Pamphlets or other printed or engraved papers and proof sheets put up in short covers, each by itself, and conveyed by the letter post packet, is, for every packet not exceeding in weight 6 tolas one anna, and for every additional 6 tolas or fractions thereof one anna more. The packet must be prepaid in full by stamps. The name and address of the person to whom the parcel is forwarded and the name and address of the sender are alone to be written or printed on it. If there be any other words or marks on it or any thing enclosed therein, the packet will be rated as a letter. Newspapers, &c. may be recalled. A packet of newspapers cannot be sent as a Banghy parcel on lines where there are both Letter and Banghy mails, nor at Book Post rates unless prepaid.

(3) *Banghy Postage* is charged according to the following scale on parcels sent by the Banghy dâk, provided "several letters" are not enclosed in them. The rate is the same whether the parcel be prepaid or not.

Each Banghy parcel must not exceed 3 feet in length or 1 foot in breadth and depth, or 600 tolahs in weight. The Officer in charge of the Post Office has discretionary power to receive or not a parcel exceeding this weight for transmission on a line where there are no foot-runners, but no parcel exceeding 2,000 tolahs in weight can be transmitted under any circumstances whatever. It must be securely packed in cloth, waxcloth or tin, and bear distinct impression of some device fixed at intervals not exceeding 3 inches along the line of sewing. No parcel will be forwarded to Ceylon exceeding 3 lbs. in weight or to other places to which a post communication has not been established by Government unless Ship and Inland Banghy postage have been prepaid in full. A Custom House pass must accompany parcels addressed to any Foreign Port. Banghy parcels and Book-post articles cannot be transmitted by private steamers and sailing vessels. They may be sent as goods through the Custom House or otherwise as the sender wishes.

Where there is no Banghy dâk established on any line of road, parcels, certified, under the full signature and address of the sender, above 12 tolahs in weight but not exceeding 40 tolahs, and not containing any letter or other written communication, Newspaper, or other printed or engraved paper, will be received and transmitted by the Letter Post at Banghy rates.

(4) *Book Post.*—Packets, made up in wax-cloth and open at both ends, consisting of Books, Publications or works of Literature or Art, either printed or in manuscript, Newspapers, &c., may be forwarded, if prepaid, by Book-Post, *i. e.* Banghy dâk at the rate of one anna for every 20 tolahs, but they must not exceed 120 tolahs in weight. Books are charged as if posted afresh when re-directed. A fee of 4 annas is charged when a book is registered.

Ship Postage.—(1) *Letters* forwarded and received by private sailing vessels are subject, in addition to the ordinary inland postage when transmitted from or to the interior, to a charge of one anna without reference to weight. Unpaid letters received from any place not under the Indian Government are liable to single rates of postage on delivery, but if re-posted by an agent they are, if unpaid, liable to double rates of postage. When sent beyond H. M.'s Indian territories the inland postage must be prepaid, if not paid or insufficiently paid, such letters, &c., are treated as unclaimed. Ship postage alone is levied when deliveries are made in Presidency towns, except in regard to newspapers received from beyond H. M.'s Indian possessions, on which no postage is charged. When sent to the interior they will be liable to Inland postage. Letters sent to and from the United Kingdom are charged when not exceeding ½ oz. 4 annas; 1 oz. 8 annas, and so on, adding 8 annas for every oz. or fraction thereof. Newspapers not exceeding 4 oz. are charged 8 pice. The payment of postage on letters is optional, but on newspapers compulsory.

(2) *Banghy Parcels* received from seaward are charged at the rate of 8 annas for every 100 tolahs, and when transmitted to or from the interior, inland postage according to the scale laid down in para. 3 is also levied. When they exceed 2,000 tolahs they are made over to the Collector of Customs for publication in his list of unclaimed packages.

Government Steamers.—*Letters, Parcels, &c.,* transmitted by this opportunity, are liable to Indian rates of postage, but when sent to places beyond H. M.'s Indian territories, they must be prepaid. No parcel exceeding 600 tolahs in weight can be forwarded.

Her Majesty's Mail.—(1) *Letters.* (*a*) The payment of postage on letters to the United Kingdom, Malta, Gibraltar, Azores, Cape de Verd Isles, Madeira, Portugal, Spain, Calcutta, Ceylon, Bombay, Aden, Malacca, Penang, Singapore, Hong Kong, is optional; but on those to Re-Union, Australian Colonies, Cape of Good Hope, China (except Hong Kong,) Manilla, Batavia, Java, Mauritius or any place not a British colony, compulsory. In the former case so far as the United Kingdom is concerned unpaid or insufficiently paid letters will be forwarded, charged with a fine of 4 annas in addition to the ordinary postage; in the latter, they will be returned to the sender through the dead letter office. Unpaid letters sent to and paid letters received from Ceylon, Hong Kong, Malta, Gibraltar, Azores, Cape de Verd Isles, Madeira, Portugal and Spain from and for the Mofussil, are subject to inland postage.

Newspapers are forwarded by the *Bombay Express* at a charge of one Rupee per copy not exceeding 4 oz. in weight in addition to the steam postage as above. Both must be paid in advance.

Book-post.—The maximum weight allowed for a parcel sent for despatch by Book-post is 3 lbs. and dimensions 2 feet in length, width or depth. The packet may contain any number of separate books or other publications, including printed letters and printed matter of every kind, prints or maps, and any quantity of papers, parchment or vellum; but no letters closed or open or any enclosure sealed or otherwise closed against inspection, nor can any communication of the nature of a letter be written or printed in any such packet or on its cover. The postage should be paid in full by means of postage stamps affixed outside the packet or its cover. If sufficiently paid and provided a single rate at least is paid, the parcel will be forwarded charged with the deficient postage, together with an additional rate: but if the postage stamps affixed do not equal in value a single book rate, the packet will be forwarded charged with letter rate of postage. The following table shews the places to which *alone* there is a Book-post and the rates charged.

Suggestions to the Public, &c.

By careful attention to the following suggestions, much facility will be given to the Post Office in the discharge of its daily duties, and greater security afforded to the Public.

1st. Post all letters, &c., as early as practicable, especially when sent in large numbers.

2nd. Make the address legible and complete.

3rd. See that every Letter, Newspaper, or other packet sent by post is securely folded and sealed,—and when prepaid, see that there is no possibility of the removal of the stamp by dishonest servants.

4th. Never trust your servants with money to purchase stamps for the purpose of affixing them to the letters, &c.

5th. Never send money or any other article of value through the post, and where necessity obliges the transmission of important documents it would be as well to do so in a registered letter. Any person who sends such documents in an unregistered letter not only runs a risk of losing his property, but exposes to temptation, every one through whose hands his letter passes.

6th. When complaint is made of Letters or Newspapers lost, miscarried or delayed, furnish information as precise as possible regarding all the facts of the case, and enclose whatever documents may throw light upon it. The day, and hour, at which the letter or newspaper, was posted, as well as the office at which, and the person by whom this was done, should always be stated; and when possible, the cover, or wrapper, in an entire state should be sent, in order that the place of delay may be ascertained by an examination of the stamps.

7th. See that every letter contains the full address of the writer, in order to ensure the return of the letter if the person to whom it is directed cannot be found.

8th. To obviate the necessity of opening unclaimed letters, parties would do well to write their names in full with places of residence on the cover of letters.

REGISTRATION OF LETTERS.

Camp Nynee Tall, 21*st October* 1862.

NOTICE.—With the sanction of His Excellency the Governor General in Council, the following Rules are published for information:—

Rules relating to the Registration of Letters sent through the Post Office.

1. By the payment of a fee of four annas in addition to the ordinary postage, *both of which must be prepaid in Stamps,* any letter, newspaper, pamphlet or book may be registered to any place under the Government of India, or in the United Kingdom and Colonies.

2. Information regarding the Foreign Countries to which letters can be registered, and the conditions thereof, will be found in the "Steam Postage Schedule for the Post Office in India."

3. Letters intended to be registered must be brought to the Post Office at least half an hour before the time fixed for closing the mail,—if brought after that time they will be stamped "too late," and retained for the following mail.

4. A Post Master or other official on being applied to register a letter will grant a receipt and retain a copy on the counterpart of the Cheque Book for the purpose, the dated office stamp should be affixed to the receipt and also to the copy.

5. So soon as a letter is registered, the postage labels thereon should be defaced, and the special stamp "*Registered*" should be affixed, the address and weight should then be entered in the *yellow cover,* after which, the letter and cover should be folded up together, and placed under lock and key, until the time for closing the mail.

6. On opening a mail packet, the Post Master should carefully examine the registered letters, and compare the weight of each, with the entries thereof in the chulan and yellow cover, the office dated stamp should then be affixed to them, and also to the yellow cover, after which they should be disposed of as prescribed in the rules for opening and distributing the mail.

7. In disposing of a registered letter, care must be taken to ensure *proof* of transfer by each official through whose hands it passes from the time of receipt to that of delivery, an acknowledgment must therefore be taken by initials or otherwise from each person into whose hands it may be given for *custody, despatch,* or *delivery.*

8. On delivery of a registered letter, the postman should obtain the signature of the addressee on the yellow cover, the "original" receipt will be retained in the delivery office, and the "duplicate" returned to the office of despatch *by the first mail.*

9. The "duplicate" receipt on being returned should be pasted to the counterpart in the Cheque Book, when not received back within the proper time, it should be called for, and a note of the requisition made on the duplicate receipt.

10. On a registered letter having to be *redirected,* the duplicate portion of the yellow cover should be receipted and returned to the office of despatch, with a remark shewing the office to which it has been forwarded.

11. When a registered letter cannot be delivered, it should be forwarded without delay, together with the original yellow cover, to the office of despatch, in view to be returned to the sender, and, if he cannot be found, it should be sent to the Dead Letter Office.

12. When a registered letter is found to be missing, the Post Master must *immediately* submit a full and clear report of the circumstance to the Inspecting Post Master and Post Master General, and also to the office of despatch, in view to a searching enquiry being at once instituted to ascertain *where* and *how,* it disappeared.

13. The Post Master General will, without delay, bring to the notice of the Director General the loss, or theft, of a registered letter, and on completion of the enquiry instituted thereon, report the result.

14. By Section 49 of the Postal Act, Government does not guarantee, and is not responsible for the safety of a registered letter, but any official through whose neglect it may be lost or made away with, will be called to strict account, and may be required to make good any loss.

15. Registration makes the transmission of a letter more secure by rendering it practicable to trace it from one official to another. If, therefore, by neglect of prescribed precautions it is lost, or made away with, the officials of the Post Office will have no ground for complaint, if held responsible for the consequences of their neglect.

16. As registration does not involve a receipt for the *contents* of a letter, and as abstraction thereof may take place *before*, as well as *after the cover is posted, and even after delivery*, it is recommended that the addressee who expects valuable enclosures should, at the time of granting a receipt, open the letter *in the presence of the postman.*

17. A letter containing Bank Notes, postage stamps, or other valuable articles, should, as a rule, be registered, and should be securely folded or enclosed in a subsantial envelope and *always sealed with wax,* in order to prevent as far as possible, its being tampered with.

N. B.—A letter is not ordinarily of importance to any person excepting the addressee, but if valuable articles are enclosed the case is otherwise, and temptation is thrown in the way of the numerous persons in the Post Office through whose hands it passes. Hence the precaution of registering such letters is recommended.

Total length of Lines in Madras Circle, Miles	1,426 0

RULES.—This Department is controlled by Act VIII of 1860.

Messages are transmitted on the Telegraph Lines in India, at the following Rates :—for distances of 400 miles, or less, messages of 16 words and under, are charged one Rupee ; over 16 words, the charge increases at the rate of one anna for every additional word ; peon-hire is charged at the rate of 2 annas per mile, measured from each Telegraph Office ; cypher messages are sent at the ordinary price, but can only be received in numbers written in full, or in common English words of concealed meaning ; the rates are doubled for distances over 400 miles, and under 800 miles ; tripled for distances over 800, and less than 1,200 ; quadrupled for distances over 1,200, and less than 1,600 ; and so on an additional rate is charged for each distance of 400 miles, or part of 400 miles ; when the messages are to be repeated, one half extra is charged, and it is only for "Repeated" messages that Refunds of Charges are granted on account of inaccuracies or delays ;—the repetition of Mercantile or other messages involving important results is optional, and not compulsory as heretofore ; no inquiry respecting this message will be attended to, without the production of this paper.

All messages must be paid for in cash at the place from which they are despatched, and before transmission, except messages between India, England, and China. Answers, however, may be prepaid by the sender of the message as at present.

Messages are received at all Telegraph stations by night as well as by day : the charge for all messages sent between sunset and sunrise being double the usual rate.

Messages, which must be prepaid, are transmitted at the following rate :— For 16 words and under, including the name of the sender and the name of the person addressed, the date and the names of places of despatch and destination, unless they be also the names of Telegraph stations, is charged one rupee for a single distance. No charge is made for stops, or for prepositions, or such words as "and Co." "Mr." and "Mrs." occurring in the address of a message. No message or messages beyond 200 words in all can be sent at one time by one individual or Firm ; and no second message can be sent till after the lapse of three hours unless the line be free and not required by any one else. The sender of a message may prepay the charge for a reply.

Private messages are transmitted in the order of their receipt at the office. When two or more messages are tendered at the same time, the shorter take precedence. So does a message in ordinary language precede one in cyphers. Messages are sent to the Post Office in letters bearing postage, if instructions to that effect be given. Messages may be sent from places not having Telegraph stations by Post and Telegraph ; but these must be written on stamp paper, to be had at the Civil Treasuries or of vendors, of the value at which the message is charged for ; and must be superscribed conspicuously "Electric Telegraph Despatch." Subscriptions for daily message of 48 words or more are received at an abatement of one-fourth of the usual rate.

A single distance is commonly any distance not exceeding 400 miles ; and for every additional single distance, a charge equal to a single distance will be made.

Peon hire, at the rate of 2 annas per mile, will be charged, if the message be sent to a place beyond half 2 miles distant from a Telegraph station.

One Rupee is the minimum rate for messages however brief, excepting when sent between Madras, and the Mount and Poonamallee, when the charge is 8 annas for 16 words.

A message may be repeated at an extra charge of half the amount otherwise payable for it, and a refund obtained of money so paid in case of non-delivery, unreasonable delay, or gross error.

All messages for despatch should be directed to the "Assistant in Charge of the Telegraph Office," and the envelope should be marked outside, "Message for Despatch."

It often happens that the message is directed to the Superintendent, Deputy Superintendent, or other Officer who may be in some distant part of the country. Even in such a case if it bears the mark "Message for Despatch" it is at once opened, and all is well—but without this distinguishing mark, it is of course forwarded to its address, and a delay of days or even weeks may result.

STAMP DUTIES

PAYABLE ON DEEDS AND OTHER INSTRUMENTS.

Act X of 1862 provides the Stamp Duties that have to be paid on Deeds, Instruments and Writings, and Law Papers. Below is given a list of the former ordinarily and generally executed with the amount of the stamp to be impressed on each as contained in Schedule A of the Act.

The stamp must be impressed on the paper itself, except in the case of the transfer of shares of any Banking Coporation or Joint Stock Company, which by any law applicable to such Corporation can be effected by simple endorsement of Receipts, Shop Bills, Bills of Exchange, and applications to Collectors of Customs. In these cases *adhesive* stamps, which should be obliterated in such a manner as to show that they had been used, may be employed.

If a Deed, Instrument or other writing be not stamped or insufficiently stamped, it is invalid as creating, transferring, or extinguishing any right or obligation; but when executed inadvertently, without intention to evade the stamp duty or otherwise to defraud Government on paper not bearing a proper stamp, such deed, &c., may be admitted in evidence before a Civil Court or duly stamped by the Collector of Stamps on payment of the prescribed stamp duty and a penalty.

Drafts or orders for payment of money on demand drawn without stamp may be stamped by an adhesive stamp by the person receiving them; but this does not relieve the drawee from the penalty incurred for issuing them unstamped.

The value of the stamp affixed to receipts is to be paid by the person granting them under a penalty in case of refusal not exceeding 100 Rupees, and so also is the expense of providing stamps for Bills of Exchange, Bonds, &c., to be met by the person drawing or making them.

Appeals from the Collectors of Stamps lie to the Board of Revenue.

Consequent upon the passing of Act No. XVI of 1862, by the Governor General of India in Council, the Income Tax Commissioners for the Town of Madras hereby notify, that, for the Income Tax year 1862-63, commencing on the 1st August 1862, no person will be chargeable to any Duty under Acts XXXII and XXXIX of 1860, whose annual profits or income, from whatever sources derived, do not amount to 500 Rupees. All profits and incomes amounting to Rupees 500 and upwards per annum, will be assessable to the Income Tax as before.

2. Any arrears of Income Tax Duty that may be due for the years 1860-61 and 1861-62, from parties whose incomes are not liable to the Tax during 1862-63, must be liquidated at once, and the amounts paid to the Collector of Income Tax in the usual manner.

3. With reference to the above Notice,* published in the Fort St. George Gazette of the 1st August 1862, those persons who may wish to be assessed "anew," instead of having the assessment of last year confirmed, should apply, without delay, to the Commissioners or to the Assessor of their Division (or to the Special Commissioner should they wish to be assessed by that officer) for Forms of Returns.

4. In these Returns must be entered their Income or Profits for the past year, and these returns must be sent in to the Commissioners, Assessor, or Special Commissioner, on or before the 1st October 1862; that is within two months from the 31st July 1862.

5. The Commissioners will deal with these Returns in the same manner as has been usual during the past year, under the provisions of Sections LIII, LIV, Part IV, of Act XXXII of 1860.

6. It will not be required that parties should make a written application for re-assessment. They may, if more convenient to themselves, apply in person at the Income Tax Office to be newly assessed. Their names will at once be registered as having thus applied, and they will be furnished with the necessary Forms of Returns.

7. Unless parties claim within the period above mentioned to be assessed "anew," the assessments made for the past Income Tax year 1861-62 will be maintained for 1862-63, and bills for the same presented, quarterly, by the Income Tax Collector.

8. In cases where the Commissioners have reason to believe that parties have not been assessed, during the past years, but are liable for the current year 1862-63 (commencing 1st August 1862), or in cases where parties have made a fraudulent or obviously inadequate Return for the past Income Tax years, the Commissioners will issue to all such parties special notices as provided in Section XXXVIII, Act XXXII of 1860, accompanied by Forms of Returns in which must be entered the Income or Profits from all sources soever derived during the past year or years, and this Return must be forwarded to the Commissioners or Assessor within the time specified in the special notice.

9. Any parties failing to make such Returns will render themselves liable to the penalties of a fine not exceeding 200 Rupees, and to an assessment of treble the amount with which they may be justly chargeable.

10. The Returns made in compliance with these special Notices will be disposed of by the Board of Commissioners, as provided in Part IV of Act XXXII of 1860, Sections LIII and LIV.

11. Any information required by parties to enable them to fill in their Returns, or on any subject connected with the Income Tax, can be obtained at the Income Tax Office, Government House.

The contracts of the Company with the Government comprehend about 850 miles of Railway, consisting of

1st. The Main Line, running S. W. from Madras to Beypoor on the Malabar Coast, with its branch to Bangalore, making together about 489 miles.

2nd. The Bellary or N. W. Line, extending from the Arconum station, at 42 miles from Madras on the Main Line, by Cuddapah and Bellary to Moodgul, where it will form a junction with the Great Indian Peninsula Company's Line coming from Bombay. Its length will be about 325 miles.

MAIN OR S. W. LINE.

The Main Line has been opened throughout to Beypoor, a distance of 405½ miles. The trains commenced to run from one side of the Peninsula to the other, on the 12th May 1862.

BANGALORE BRANCH.

It leaves the Main Line at Jalarapett 132 miles from Madras, ascends by a very favorable pass to the table-land of Mysore, and having reached the level, pursues an easy course through a productive and well-peopled country to Bangalore. The length of this Line as now surveyed and set out, is stated to be 84½ miles, which have been divided into four Districts for construction. It will probably be completed, and opened for traffic before the close of the year 1863.

SALT COTAUR BRANCH.

This Branch leaves the Main Line between Madras and Perambore, and runs to the extensive Salt Depôts opposite the People Park, a distance of one and a half mile.

BELLARY OR N. W. RAILWAY.

This Line, leaving the Main Line at Arconum 42 miles from Madras, proceeds by Cuddapah, Gooty and Bellary to the town of Moodgul, the chief place in the Raichoor Doab, where it is to form a junction with the Railway

coming southward from Bombay. The entire distance from Madras is about 367 miles. A distance of 17 miles in the 1st District from the junction station at Arconum to Naggery has been opened for Traffic, and an additional opening to Pootoor, a distance of 9 miles from Naggery was opened on 8th December 1861.

A further opening to Triputty took place on the 15th September 1862.

Capital of the Company—Finance.

The Main Line, its cost with the branches, was roughly estimated at £4,000,000.

Of this capital, the first half million, termed "Original Capital" was raised on a guaranteed interest at 4½ per cent. per annum; the next half million, termed "First Extension Capital" on a guarantee of 5 per cent.; then a million termed "Second Extension" at 4¾ per cent.; and the last million termed "Third Extension" at 5 per cent.

The Company have also under further power raised another million on Debentures at five per cent. for five years not convertible into stock, but renewable at the option of the holder under the title of "Fourth Extension Capital." One million at 5 per cent. has been authorised for the North West Line.

The mode of Survey pursued is to take main circuits by the traverse system of about 100 or 200 square miles, connected, where practicable, with stations of the Great Trigonometrical Survey, and then by the same method to take the circuit of each village boundary, or of sub-divisions of the villages, where they are large. The whole of the Government lands, except hilly and jungly tracts never likely to come under cultivation, are then measured in the detail of fields. The Topographical features of the country are delineated, and the whole is recorded in the form of Village maps on the scale of 16 inches to the mile, in Talook maps of 2 inches to the mile and District maps of half inch to the mile.

The duties of the Settlement Department divide themselves into two branches, *viz.* the Demarcation of boundaries for the survey, and the Classification and Assessment of the lands.

The exterior boundaries of villages are marked by masonry pillars at the tri-junctions and the two adjacent stations, as well as at other prominent points; the intermediate bends of minor importance are marked with earthen mounds, or with stones, where they are available. The masonry pillars thus employed are considered quite sufficient to admit of the theodolite stations of the traverse of the village boundaries being retraced in case of such a step being necessary at any future time. Where the villages are large they are marked out in divisions of 200 to 400 acres, in order to facilitate the check on the aggregated measurements of fields, and also to give more permanency to the Survey, by affording the means of retracing any obliterated portions from starting points in the interior of the village area, instead of trusting only to the marks on the exterior village boundary. The marks on these sub-divisions are earthen mounds, or stones where procurable. Trees are also planted on these as well as the exterior boundaries.

The boundaries of the fields are marked by earthen ridges about half a yard high, and extending about 2 yards from each corner in the direction of each side of the field, with intermediate ridges of 2 or 3 yards in any long distances. Where the fields are small, they are clubbed together for demarcation, provided the area of such aggregated patches does not exceed 2 acres of irrigated, or 4 acres of dry land.

The Demarcation establishment prepare on the ground rough sketches of the boundaries of the villages, and of their sub-divisions and also of the fields in each village, showing the relative position of each field; corresponding with these sketches, a Field Register is prepared giving the numbers of the fields, the names of the owners or occupants, the nature of the tenure and other necessary particulars. The villages when thus demarcated are handed over to the Survey Department along with the Sketches and Registers above described.

For the classification of soils, the following four great series are adopted :—

1st. The *Alluvial and Exceptional* series which provides for the rich island soils of extraordinary fertility, and for garden and other soils permanently improved, and ranking above the ordinary cultivation.

2nd. The *Regar* series, comprising what is called the black cotton soil, with all its varieties under the head of Masab and other native terms, which are not very definite.

3rd. The *Red Ferruginous* series, originating from sandstone, laterite, &c., and possessing distinct characteristics in its constitution and fertility.

4th. The *Arenaceous* series, comprising chiefly the sandy tracts originally deposited from the sea in littoral districts.

Classes are then assigned to each series to take in all its varieties of fertility, and grain values in the staple produce are allotted to each class. The grain value is commuted at what is considered a moderate and fair price, a certain deduction made for expenses of cultivation, &c., and eventually after taking into account the circumstances of proximity to the homestead, to markets, roads, canals, &c., as well as the sources and sufficiency of irrigation and drainage, an assessment is fixed approximately in the ratio of the net profits.

Any Baggage that may be missing on arrival at the Steamer's destination should be immediately notified by the Owner, in writing, giving full description of it to the Company's Agents, when every possible exertion will be used to insure its being recovered and forwarded as directed.

GENERAL CONDITIONS.

I. The Company is not responsible for Loss or Damage arising from accidents or perils of the Sea, or from any other fortuitous causes.

The Company is not responsible for any consequences arising from sanitary Laws or precautionary measures of Governments, which may prevent the embarkation, disembarkation, or transhipment of Passengers.

The Passage-Tickets are delivered on the conditions stipulated thereon. Passengers are to accept all consequences resulting from the employment of the Steamers in the Mail-Service.

The Company undertakes no responsibility in the event of the Steamer's non-arrival at the several points of junction; such as Alexandria, Suez, Aden, Point-de-Galle, Singapore, Saïgon and Hong-Kong, whether arising from accidents, or circumstances beyond control; in such cases the Company undertakes only to convey Passengers to their destination by its next Steamer; the expense of such detention at the Port of transhipment, or any other consequences arising from the absence of such coincidence, will be at the Passengers' charge.

In case a Steamer of the Company should be placed in Quarantine, Cabin-Passengers will have to pay 10 frs., and Steerage-Passengers 2 frs. 50 c. per day, for their maintenance on board during the continuance of the Quarantine.

The dates indicated in the published itineraries are only approximative, except those concerning the extremes points of the Lines. From all other Ports the dates and hours of departure are subordinate to those of the arrivals of the Steamers.

In case of advance or delay in the departure from any Ports, Passengers booked will not, by reason of such advance or delay, be entitled to any claim upon the Company.

The Passage-Tickets delivered by the Agents of the Company must, in order to be made available, be signed by the Passenger to whom they are delivered.

The Passage-Tickets must be given up on board to the Commander or to the Purser.

The Passage-Tickets are Personal and cannot be transferred without the express authorisation of the Company.

II. Passengers are amenable to the Laws of the Country through which they may pass, it is, therefore, prohibited to conceal Letters, or Goods subject to Customs Duty. Persons infringing that Regulation will be held responsible for the consequences to the Company, as well as to themselves.

No inflammable article, or those of a nature to injure other Goods, will be received on board the Company's Steamers, whether as Baggage or as Merchandise; any Person placing such Articles in Goods or Baggage will be liable

to legal Penalties, without prejudice to his responsibility for injuries that might result from the shipment thereof.

III.—The difference in the Prices of Cabin-Passages on board the Company's Steamers results exclusively from the different positions of the Cabins occupied; as regards the Table, and indeed in all other respects, Cabin-Passengers are on an equality on board.

Linen and Bedding are furnished by the Company, Steerage-Passengers, however, are not supplied with Bed-Linen.

The Rates of Passage-Money stated in the published Tariffs include Table, and Wine for table use.

Choice Wines, Liqueurs, etc., can be had, at moderate prices, on Board the Steamers.

Steerage or Second Class Passengers will receive a daily allowance of *vin-ordinaire.*

IV.—No Berth or Cabin will be considered as taken until one half of the Passage-Money shall have been paid, or the whole if under 20£. The second half must be paid 14 days before the date of Sailing.

Passengers not embarking after having paid the whole of the Passage-Money will forfeit half of the amount; unless, however, the Passenger should have been unavoidably prevented from embarking at the date for which the passage was taken, in that case the Ticket can be made available for a subsequent Voyage, on sufficient notice being given to the Company's Agents, without any portion of the Deposit being forfeited. The accommodation allotted in the second instance will be as similar to that originally chosen as circumstances may permit.

V.—Passengers going the entire Journey will be allowed a priority, in the choice of places, over Persons going only to intermediate Ports, who, however, if in possession of Berths cannot be displaced.

In the Indian and China Seas no Tickets will be issued for intermediate Ports until after Passengers for Europe shall have taken their places.

In cases where a Passenger may desire to change from a Cabin forward to a Cabin aft, or from a double to a single Cabin, the difference will be charged from the last Port touched at to destination.

VI.—Persons dangerously ill, or afflicted with a contagious complaint, or those suffering from mental alienation cannot be received on board the Steamers.

In the event of either of such afflictions declaring itself in the course of the voyage, the person will be landed at the nearest Port at which the Steamer may touch; such detention will be at the Passenger's own expense, who will, however, after convalescence, be entitled to continue the Journey, without additional expense, in one of the Company's Steamers.

VII.—Passengers must conform to the Regulations of the repective countries relative to Passports.

In cases where that formality is required, Passengers should present themselves, with their passports duly *vises*, at the Company's offices at least 4 hours before the departure of the Steamer.

VIII.—Passengers are earnestly requested to comply with the Company's Regulations, established for the general safety and comfort of all on board its Steamers.

OBSERVATIONS.

The Ladies' Cabin is exclusively appropriated to the use of Lady Passengers. Gentlemen will not be admitted into the Ladies' Cabin; each Cabin is at the exclusive disposal of its occupant.

No Passengers, except those who retain single Cabins, will be allowed the use of a whole Cabin so long as other Passengers of the same Class require accommodation.

Steerage-passengers will not be admitted to the after part or quarter-deck of the Steamers, the space allotted to them on Deck is that from the Funnel forward.

Passengers' Servants will only be admitted into the Saloon and Cabins in performance of their duties, when they will be allowed to remain only the time rigorously necessary.

Smoking is strictly prohibited in the Saloons, Cabins and Steerage, or other parts between decks, and will be tolerated only on such parts of the Deck where it may not expose other Passengers to inconvenience.

The Attendants on board the Company's Steamers are forbidden to ask for gratuities from the Passengers.

PEOPLE'S PARK, MADRAS.

INSTITUTED IN 1859.

COMMITTEE OF MANAGEMENT.

PRESIDENT.

Colonel W. P. Macdonald.

MEMBERS.

Col. W. K. Worster,	Col. G. W. Y. Simpson,	Major Bell,
Col. H. W. Hitchins,	A. J. Arbuthnot, Esq.	Dr. H. B. Montgomery.
Dr. C. M. Duff,	J. Rohde, Esq.	

Surgeon Major J. W. Mudge, M. D., Honorary Secretary.

We need scarcely remind our readers that the People's Park of Madras owes its origin to Sir Charles Trevelyan, K. C. B., our late talented and energetic Governor. His Excellency shortly after his arrival perceiving the urgent necessity which existed of providing a place for out-door amusement and exercise for the great body of the middle classes of Madras, (who are almost exclusively Eurasians) suggested the idea of the now intended Park. The sanction of Government was readily granted, and prizes were offered for the most suitable designs for laying out the Park. The idea of the competition for the prizes was eagerly laid hold of by the public, and within three months of the first announcement no less than sixteen plans, all of them meritorious and some of them possessing very great excellence, were submitted to a Committee appointed by the Government to award prizes for the best designs. The first prize was granted to Mr. Robert Baldrey, who, under the suitable motto of "Trees and Water for a hot climate," contributed a design, not only possessing high artistic merit, but also fulfilling almost all the requirements of a Public Park. To Captain Brooks of Poonamallee, a prize of 100 Rupees was allotted, and to Captain C. P. Taylor, and J. W. Addis, Esq., rewards of 50 Rupees each were subsequently presented.

The Park is now established as one of the Institutions of Madras and has been opened to the Public. An undertaking of this kind must necessarily require some time for its completion, but enough has been done to assure us of the general effect of the whole. It must be considered an unqualified boon to the community. Trees are growing up. The first instalment of a Zoological collection has been introduced. The Tigers' and Panthers' cages daily attract hundreds of visitors. Other buildings are passing through the necessary steps to sanction and erection. A Giraffe, a Bear and several members of the Deer tribe will then find accommodation. A handsome Aviary has been put up and various other works are in contemplation. The grass which has been carefully planted in the cultivated portions of the Park already returns a revenue to Government, and hay of the best description is produced in considerable quantity.

Grants for the prosecution of the works are made from the funds of the Department of Public Works on Budget estimates submitted in the usual way, and any proceeds arising from the sale of hay or other sources are paid into the Treasury and credited to the general revenue of the State.

A Band plays weekly in the Park.

MR. BALDRY'S PRIZE DESIGN OF THE PEOPLE'S PARK.

CANAL.—If the Canal be spanned over by a light suspension bridge in the centre and bowed out on both sides, it would greatly add to the appearance of the Park ; besides the entrance from the Town would be greatly facilitated. The road to the bridge is also in a direct line to the bridge.

The dredger which will soon be constructed on the Island could be very well used to deepen the Canal.

No drains should empty into the Canal.

ARTIFICIAL LAKE, &C.—Water and trees for a hot climate being my motto, I have dug a tremendous hole in the Park for the purpose of having a fine lake and raising an abrupt mound with rock work forming caves, &c. for Zoological purposes, and also for providing height for Reservoir to supply water to fountains.

HOTELS.—When the line from Ponany to Madras is completed there will be a greater number of travellers passing through Madras, and Hotels of some attraction ought to be constructed to induce them to prolong their stay.

CONVALESCENT VILLAS FOR THE PATIENTS FROM THE GENERAL HOSPITAL.—How refreshing to the poor invalids to have water and trees to look at, after being enclosed in bare walls.

ROADS.—It will perhaps not at of place, and therefore I beg to remark that the dust (that grea ance in Madras) is greatly augmented by the strewing of sea san r the completion of the Roads, now by discontinuing its use, and g small gravel strewed instead, I think it would greatly obviate it accumulated dust could be got rid of, by digging small pits on e de of the road, and filling them up with it, while the hard soil dug d be beaten down on each side of the road.

VILLAS.—The Villas perhaps d not meet the approbation of an English eye—but the climate o ia must be considered. They are colonaded.

CHURCH.—The increase of in ants in this locality will necessarily demand a place of worship, I do not think there could be a better site, than the one shown on lan.

COLLEGE.—An extensive Col f general instruction would be a great boon to the Inhabitants of ras. If Government were but to aid, large contributions would be raised. It is also a central spot.

MUSEUM.—A fine site for the sed Government Museum.

1,000 Yards Book-binders' Calico.

And proportionate quantities of other Goods usually considered as "General Stationery," as also of Books and cheap Music, are also periodically shipped to J. D. H.'s address.

The above goods are **positively ordered, are duly arriving,** and **must be as positively and duly sold, spite of all the competition that can exist.** In calculating the above quantities, J. D. H. has merely taken as his guide, *the entire transactions of the Madras Market.* He believes that **as Wholesale Importer of his own Goods in his own exclusive Line of Business,** he can profitably direct his attention to its advancement and thorough development, by noting, and studiously providing for, the recurring wants of his Customers.

Respecting his **Prices,** *it may be presumed that he would scarcely Import so extensively if they would not bear comparison with others in the Market. Private Importers will do well to ascertain how far they can profit by his arrangements.*

A large Stock of Goods is constantly on hand; but a saving to Buyers may be effected by giving in their Orders **for transmission to England on their own account,** instead of buying from the Stock on hand.

J. D. H. takes the present opportunity offered by this Publication of bringing the foregoing announcement to the notice, as he hopes, of many Dealers and Agents residing at Out-Stations, who may with advantage communicate with him. They would find Goods—such as Stationery, Cheap Books, &c., with which he can supply them, to be both saleable and profitable.

A Catalogue of 62 pages 8vo.,—of Books, Music, and Stationery with Retail Prices affixed, is available to the Public generally.
